

Midland Pilot Program Coming Fall 2024!

BCTA Connect riders will be able to schedule same-day trips on the mobile app or by calling the BCTA Scheduling Team.

To make trips faster, BCTA Connect will pick up riders from the curb in front of their residence and drop off at their destination.

Each BCTA Connect vehicle is equipped with a wheelchair lift and high roof to improve the accessibility of the service.

Though the exact fare is still being determined, riders should expect to pay an affordable fare with discounts for children.

Service will be available Monday-Friday from 8:30 am - 4:30 pm. If successful, service could expand to 6:30 am - 6:30 pm for more opportunities, including employment.

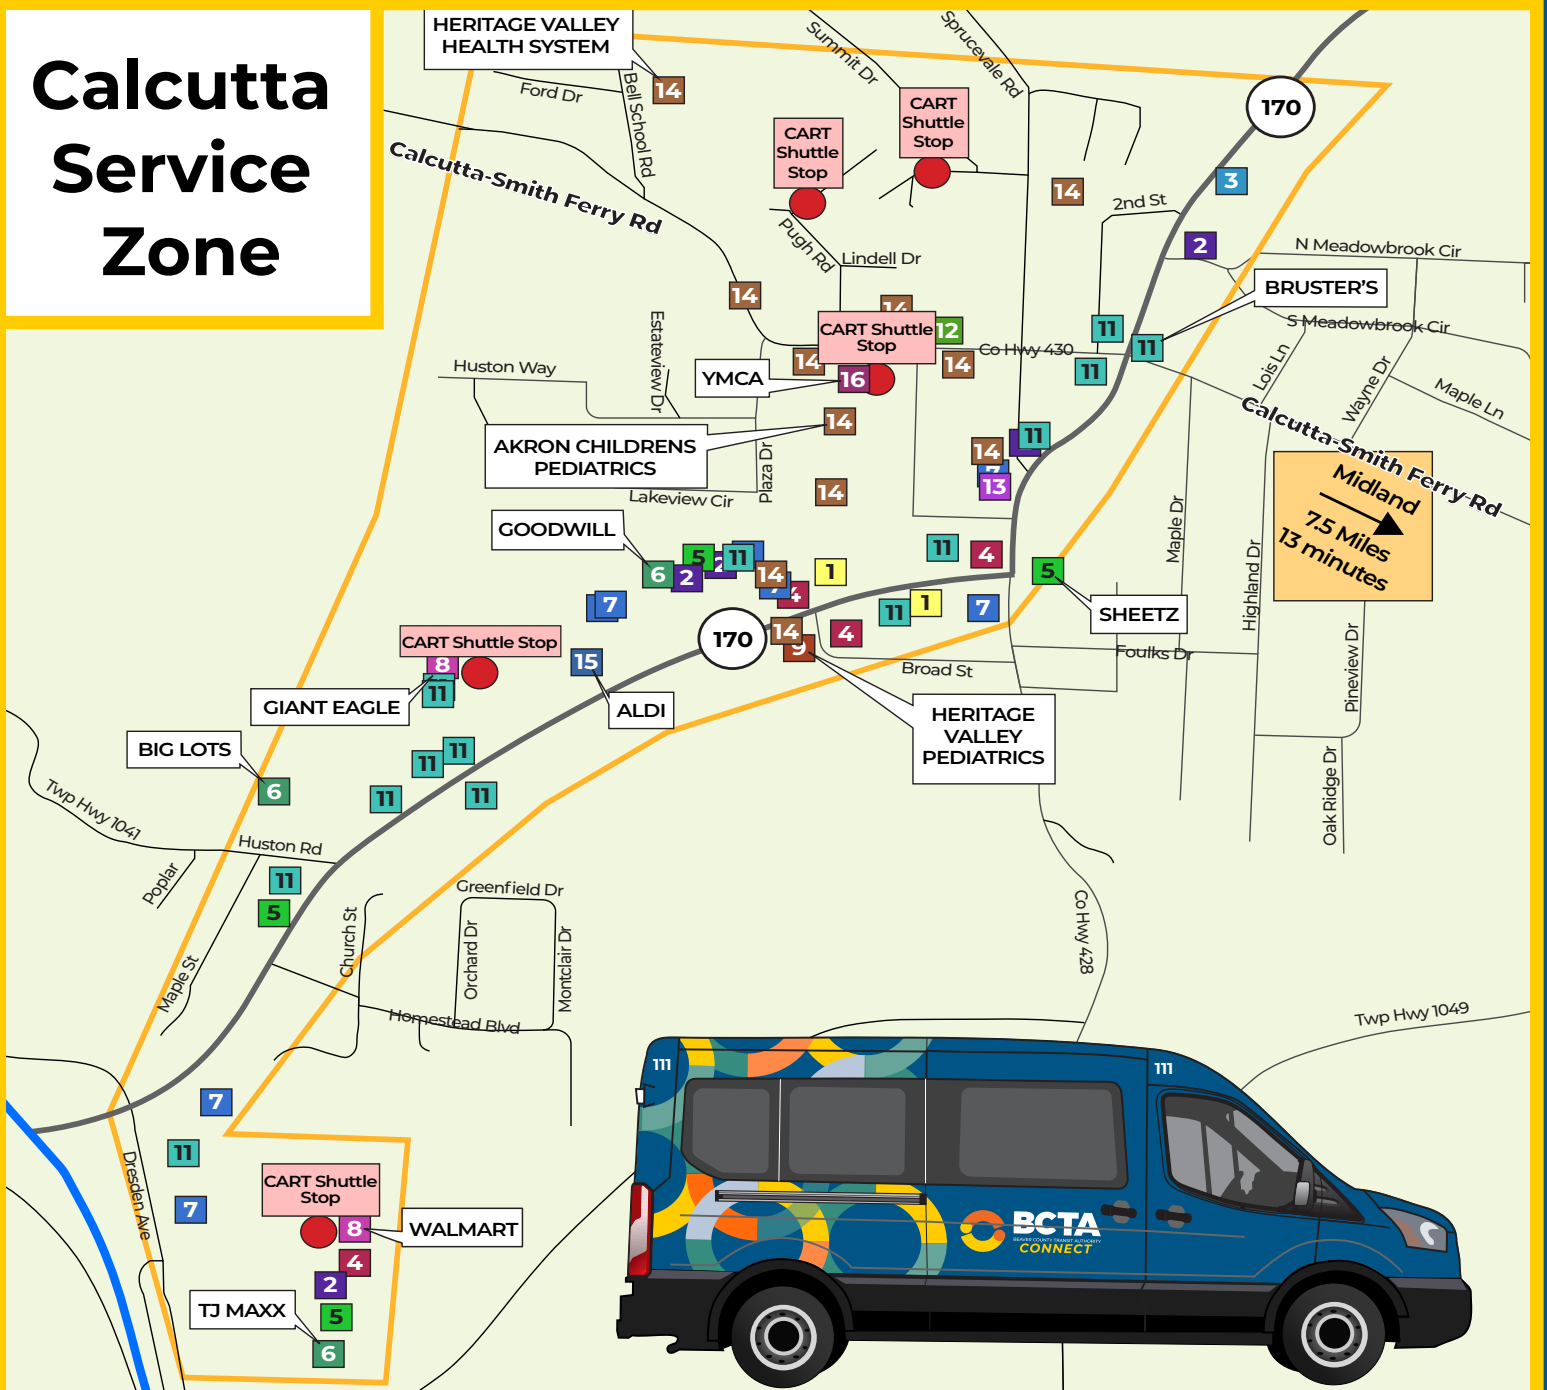

The BCTA Connect Zone will be a concentrated area along Route 170 in Calcutta, Ohio. This zone provides access to many destinations.

Easy connections to the CART Shuttle are available for \$1.00 to reach additional destinations.
